Workplace Safety Handbook

Read this before the video. It covers the three habits every team member needs.

1. Spot the hazard

Look before you act. Common hazards in our offices:

- Trailing cables and blocked walkways
- Wet floors near pantries and entrances
- Overloaded power strips
- Unstable shelving or stacked boxes

2. Report it

If you see something unsafe, report it the same day:

- Tell your manager or the floor warden
- Log it in the Facilities portal
- Mark the area if it is safe to do so

3. Know the exits

In an emergency:

- Use the nearest marked exit, never the lift
- Go to your floor's assembly point
- Wait for the warden's all-clear before going back in
